Login

Once you have started the GUI and the API is running, you will be greeted with a login screen. Use the credentials “Username: SRogers, Password: America1” or “Username: TStark, Password: Iron1” then click the login button to enter. Or register a new user.

The image shows a screenshot of a login window. The window has a title bar with the text "Login" and standard window control buttons (minimize, maximize, close). The main content area is white and contains the following elements:

- The word "Login" in a large, bold, black font.
- A label "Username" above a text input field.
- A label "Password" above a text input field.
- Two buttons at the bottom: "Login" and "Register".

If you enter the wrong user name or password you will get feedback as shown
